## Horizon 2047: Blueprint for Enhanced India-France Partnership

Ritesh Kumar

India and France have unveiled a roadmap titled "Horizon 2047" to propel their bilateral cooperation over the next 25 years leading up to the momentous occasion of India's centenary of independence. Additionally, this initiative will commemorate the remarkable 50-year milestone of the India-France Strategic Partnership. This visionary approach is poised to elevate their relationship to even greater heights. The roadmap was unveiled during Prime Minister Shri Narendra Modi's recent visit to Paris which laid groundwork for a strengthened alliance across a diverse array of sectors, encompassing defence, climate change, energy transition, space cooperation, the blue economy, multilateralism, and counter-terrorism. 'Horizon 2047' deliberately addresses the dynamic global landscape

Prime Minister Shri Narendra Modi has been conferred with the Grand Cross of the Legion of Honour by President Mr Emmanuel Macron of France. This makes him the first ever Indian PM to receive France's highest civilian and military honour.

France stands as the second largest supplier of arms to India, following Russia. Given Russia's depleting military resources due to the conflict in Ukraine, it is likely that this collaboration will further intensify, as evidenced by the Union Cabinet's recent endorsement of a proposal for procurement of 26 Rafale fighter jets for the Indian Navy.

India perceives France as a vital partner in its endeavor to establish a self-reliant defence industry and technological base. Both nations aim to collaborate in the co-development and co-production of advanced defence technologies, with a particular focus on benefiting other nations as well. In the realm of military aviation, India and France have a rich history of cooperation spanning over five decades. France's Rafale aircraft has already become an integral component of India's military

emphasising three crucial pillars: (i) Partnership for Security and Sovereignty (ii) Partnership for the Planet (iii) Partnership for the People. The three pillars hold paramount importance in

shaping the future trajectory of India's relationship with France, its most crucial partner in Europe.

**Defence Collaborations:** In the light of the longstanding

strategic partnership between India and France, it comes as no surprise that defence agreements have occupied a central position in the vision for the next 25 years. Notably,

## Multimedia Careers for Creative Individuals

Jyoti Tiwari

Would you consider yourself someone with a remarkable creative acumen? Are you seeking a fulfilling career where you can unleash your creativity and bring your imaginative ideas to life? If the answer is yes, welcome to the exhilarating world of multimedia, where you can find your perfect fit!

In this fast-paced digital era, traditional modes of communication simply fall short. We have entered an age where people crave dynamic, visually-rich content that engages their senses and captures their attention. Gone are the days when a simple text article or a plain image could suffice. Today, we want to see, hear, and experience information in a whole new way.

Hence, multimedia has become the new superhero of communication! It is a delightful blend of different art forms and media formats that combines

visuals, audio, video, graphics, and more to create content that truly resonates with audiences. Whether it is an attention-grabbing video, an interactive slideshow, a captivating advertisement, or even a cutting-edge video game, multimedia has revolutionised the way we consume and interact with information.

So, why has multimedia become the new norm? Well, it is all about engagement and impact. With the rise of social media, streaming platforms, and the accessibility of high-speed

internet, our attention spans have become shorter than ever. We are constantly bombarded with a sea of content, and if you want to stand out in this digital ocean, you need to make a splash.

That is where multimedia comes in. Its ability to combine different media allows us to convey messages in a more

holistic and immersive way. Instead of reading a lengthy article, we can watch a captivating video that not only informs us but also evokes emotions and captures our imagination. We can explore interactive touchscreens that bring data and information to life, making it more accessible and engaging. We can even become a part of the story through virtual reality experiences that transport us to entirely new worlds.

But it is not just about grabbing attention. Multimedia also enhances our understanding and retention of information. By incorporating visuals, we can visualise complex concepts and data, making them easier to comprehend. Through audio, we can add layers of emotion and

## Horizon 2047: Blueprint for Enhanced India-France ...

aviation capabilities. Looking ahead, both countries plan to expand their groundbreaking defence collaboration by supporting the joint development of a combat aircraft engine. Furthermore, they are also engaged in a project to provide propulsion systems for heavy-lift helicopters under the Indian Multi Role Helicopter (IMRH) program, with the participation of Safran Helicopter Engine, France. These initiatives foster trust and facilitate technology transfer, exemplifying the successful Indo-French partnership.

India's SAGAR (Security and Growth for All in the Region) vision aligns with President Macron's Indo-Pacific Strategy. This convergence of visions forms a strong foundation for comprehensive cooperation, particularly in maritime security and naval cooperation. India and France are already successful in maritime coordination through initiatives like the Indian Ocean Naval Symposium (IONS), the Djibouti Code of Conduct, and the Regional Cooperation Agreement on Combating Piracy and Armed Robbery against Ships in Asia (ReCAAP). France also supports India's aspiration to join the Combined Maritime Forces (CMF). A logistics support agreement and the joint pursuit of the Indo-Pacific Oceans Initiative solidify this maritime security partnership.

The Scorpene submarine construction programme (P75 - Kalvari) stands as a shining example of India's "Make in India" initiative and the exchange of naval expertise between India and France. Recognising the potential for further growth, both nations express their willingness to explore more ambitious projects for the development and performance enhancement of India's submarine fleet.

The collaboration between India and France extends beyond specific projects, encompassing a broader defence industrial partnership. Noteworthy instances include the ongoing contract between Safran Helicopter Engine and Hindustan Aeronautics Limited (HAL) for the transfer of technology pertaining to the forging and casting processes of the Shakti Engine. Additionally, collaboration between Garden Reach Shipbuilders and Engineers Ltd. (GRSE) and Naval Group France in the field of surface ships highlights the depth and prospects of the defence industrial partnership. In line with these aspirations, the Technical Office of India's Defence Research and Development Organisation (DRDO) will soon be established in Paris. This office will serve as a hub for technical collaboration and the exchange of expertise.

### Shared Interests, Common Vision for Indo-Pacific

Prime Minister Shri Narendra Modi's visit not only reinforced the bilateral relationship, but also emphasised India's central role in France's strategic vision for the Indo-Pacific. Both Delhi and Paris share a commitment to the Indo-Pacific concept, which forms the cornerstone of their cooperation in the region. This alignment goes beyond political and conceptual dimensions, encompassing a shared belief in strategic autonomy, a multipolar world order, and comprehensive geographic understanding. While other nations have varying definitions of the Indo-Pacific, India and France share an expansive

view that stretches from the East coast of Africa to the West coast of the Americas. Hence, the trilateral cooperation with like-minded partners, exemplified by dialogue with the United Arab Emirates and Australia, forms a crucial pillar of their Indo-Pacific collaboration. Through the establishment of the Indo-Pacific Triangular Cooperation (IPTDC) Fund, India and France aim to support climate and SDG-focused innovations and start-ups from third countries in the region, facilitating the scaling up of green technologies. This initiative not only provides viable and transparent funding

- Prime Minister Shri Narendra Modi graced France's Bastille Day Parade on July 14 as the Guest of Honour, an exceptional distinction bestowed upon a foreign dignitary only on select occasions.
- Commemorating 25 years of India-France Strategic Partnership, the tri-services contingent of the Indian Armed Forces marched alongside their French counterparts on Bastille Day also known as Fete Nationale Francaise.
- The Day is observed in remembrance of the storming of the Bastille in 1789, a significant event during the French Revolution.
- The alliance between the Indian and French Armies traces its origins back to World War -I during which over 1.3 million Indian soldiers fought valiantly on French soil, with approximately 74,000 making the ultimate sacrifice and 67,000 sustaining injuries in the treacherous trenches.

comprehensive approach to the partnership.

The International Solar Alliance initiated by India and France also demonstrates their commitment to renewable energy deployment in the Indo-Pacific region. Both countries propose that start-ups in the Indo-Pacific benefit from the Solar X Challenge project. Furthermore, they support initiatives such as the Indo-Pacific Parks Partnership and a mangrove conservation initiative focused on Pacific states. The establishment of the India-France Indo-Pacific Triangular Development Cooperation Fund aims to strengthen development cooperation, while partnerships in the Coalition for Disaster Resilient Infrastructure contribute to building resilience and

disagreement, such as differing positions on the Russia-Ukraine conflict. As highlighted in their joint communiqué, this relationship has proven resilient in times of adversity and ambitious in seizing opportunities.

**Revitalising Multilateralism for Global Progress:** Committed to shaping a global governance system that resonates with the contemporary realities of our world, both India and France advocate for comprehensive reforms that rejuvenate and strengthen multilateralism. Central to their shared vision is the imperative to reform the Security Council, making it more inclusive and representative of the diverse voices and perspectives that shape our global landscape. With a steadfast belief in the

alternatives but also serves as a cornerstone of the India-EU Connectivity Partnership.

India and France share a common objective of extending development cooperation to countries in the Indo-Pacific region. This includes collaboration in Africa, the Indian Ocean Region, South Asia, Southeast Asia, and the Pacific. India and France both recognise the significance of stability and security in the Indo-Pacific, where a substantial portion of global trade flows and China's assertive actions raise concerns. With 1.5 million French citizens residing in the region, France emerges as the most active European power. While India persistently seeks to cement ties with Western countries, driven in part by concerns over China, the Russia-Ukraine war prompted European nations to diversify their economic dependence. India, viewed as a country capable of balancing China both economically and as a security provider, emerges as a significant partner for European powers. The deepening rivalry between the United States and China has also compelled middle powers like India and France to engage more actively, striving for a multipolar world. With a shared commitment to securing their economic and security interests, ensuring access to global commons, promoting prosperity and sustainability, advancing the rule of international law, and fostering a balanced and stable regional order, India and France are determined to enhance their cooperation in the Indo-Pacific. Notably, their focus extends to the Pacific, with the involvement of French territories such as New Caledonia and French Polynesia, highlighting their

sustainability, particularly in small island states. By working together in areas such as the Indian Ocean Rim Association and the Indian Ocean Naval Symposium, India and France contribute to regional stability and prosperity.

India and France are also dedicated to fostering healthcare and educational cooperation in the region. They plan to establish the Indo-French Health Campus for the Indo-Pacific, which will serve as a regional hub for research and academia. Drawing on the successful experience in the Indian Ocean, the campus may be opened to Pacific Island nationals, fostering knowledge exchange and capacity building.

**Valuing Independence in Foreign Policy:** The pursuit of "strategic autonomy" has played a significant role in shaping India's and France's foreign policies, while also fostering mutual support and collaboration. India has embraced this concept since its post-independence years, particularly during the Cold War, while French President Macron has passionately advocated for it at the European level. France has historically maintained an independent stance towards India, even during a time when India faced sanctions from the United States and others as it became a nuclear weapons state in 1998. In fact, France was the first Western country to engage in dialogue with India during that period. The establishment of a Strategic Partnership between the two nations in the same year laid the foundation for their enduring bond, which has transcended challenging times and continues to thrive today. France's recognition of India's right to make independent choices has helped overcome potential areas of

G4 credentials and India's valuable contribution, India and France champion the accession of new permanent members, thereby fostering a more equitable balance of power within the Security Council. Moreover, recognising the urgent need for enhanced African representation, they advocate for greater participation from the African continent among the council's permanent members. Furthermore, both nations emphasise the importance of initiating dialogues on the regulation of veto power usage in the face of mass atrocities, ensuring that this privilege does not hinder concerted efforts to address grave human suffering.

Embracing the Paris agenda, which emerged from the Summit for a New Global Financial Pact, India and France demonstrate their unwavering commitment to robust measures that advance development and safeguard the environment. Recognising the intertwined nature of these two critical aspects, they advocate for comprehensive actions that promote sustainable growth while preserving and protecting our planet. By aligning their efforts with the Paris agenda, India and France emphasise the need for collective responsibility and concerted action in tackling pressing global challenges, fostering a world that thrives on the principles of development, equity, and environmental stewardship.

**Combating Climate Challenges:** India and France, as stalwart allies, join forces to address the profound perils of climate change through a resolute commitment to collaboration. Their partnership focuses on transitioning to a low-carbon economy, ensuring energy security, and achieving the objectives of the Paris Climate

# India-UAE Relations on a New High

Gowri.S

The art of diplomacy has been the backbone of nations' foreign policies since time immemorial. With India's approach evolving to prioritise its neighbours, both near and far, this evolution has paved the way for international cooperation and mutual development while preserving each nation's unique identity. In the contemporary world of accelerated globalisation, trade and economic collaboration have taken center stage in foreign affairs. A testimony to this burgeoning agenda of progress is the recent visit of Prime Minister Shri Narendra Modi to the UAE, where the iconic Burj Khalifa illuminated in the Indian tricolor offered a warm welcome. The historic and strengthening ties between India and the UAE heralds a future of mutual prosperity and advancement.

India and the United Arab Emirates could be seen as having historically close ties, which has progressively grown closer with the establishment of the Arab Federation in 1971. The year 1981 marked the first visit of the then Indian Prime Minister, Mrs. Indira Gandhi to the UAE after which there was a hiatus of 34 years, which was broken in 2015 by Prime Minister Shri Narendra Modi's visit in 2015. The recent visit was the fifth visit by PM Modi, when along with a ceremonial welcome, he was accorded the Guard of Honour. These visits have been reciprocated with the President of UAE Sheikh Mohamed bin Zayed Al Nahyan visiting India in 2016 and in 2017, wherein in the latter, he graced the Republic Day celebrations of India as the Chief Guest.

The significance of these visits go beyond the symbolic, to realisation of mutual goals for both countries in economic, social, political and cultural spheres. Economically, the year 2022 witnessed the signing and enforcement of CEPA (Comprehensive Economic Partnership Agreement). Earlier in 2017, the two nations had also ratified a Comprehensive Strategic Partnership. The CEPA goes further than a Free Trade Agreement in solidifying bilateral relations, the various economic facets of such an agreement covers all areas of economic cooperation from trade in goods and services, removing technical barriers to trade, procurement, rules of origin and procedures in customs, to digital trade, investment and infrastructural facilitation as well as a mechanism of dispute settlement. This in the most basic terms, the relaxation of tariffs and duties along with preferred investment statues would lead to increased trade between the two nations, whereby both benefit.

India benefits from the access of markets in as much as 111 subsectors out of a total of 160, which also means the creation of new markets for goods and services from the 'Make in India' programme. Furthermore, there is the generation of new employment opportunities in multiple sectors, specifically gems and jewellery, agro-processing, medical devices and pharmaceuticals, among others. UAE

stands to gain from the market access to India in 100 out of 160 sub-sectors, and exporting opportunities in various service sectors, such as computer related, tourism and travel and others. And in construction, environmental and health services, India has committed to a 100% foreign equity. As of 2023, India has become UAE's second largest trading partner and UAE is India's third largest trading partner and second largest export destination. Since the ratification of CEPA in 2022, there has been a 15% increase in trade between the two nations.

Three significant memorandums have been signed, firstly is the memorandum of understanding signed by the governors of the central banks of both countries in establishing a process to promote the use of local currencies (INR-AED). The second MoU is on developing an interlinking payment and messaging mechanism. Such a system of local currency settlement not only testifies to the mutual trust between two nations, but possibilities of easier and efficient cross border transactions. Furthermore, in the area of investments, the plan of Abu Dhabi Investment Authority to set up its presence in Gujarat International Finance Tec-City has been acknowledged. The third MoU pertains to the establishment of an Indian Institute of Technology- Delhi in Abu Dhabi.

The MoU between the education ministries of both countries as well as with IIT Delhi, signals the increased investment of the countries in their knowledge economy, especially in areas of science, technology, communication and space. Such interest in investment in the knowledge economy has resulted in the increased accordance of golden visa residencies to doctors, engineers and other experts in technological disciplines.

In the geo-political arena, both nations play a significant global role. In the year 2023, India holds the presidency for G20 and UAE the presidency of COP28 (United Nations Climate Change Conference 2023, Conference of Parties 28). While India looks forward to host UAE for the G20 Summit in September, UAE holds India's complete confidence and support in COP 28. The countries have mutually extended their support and acknowledgement for each other in other international platforms too. Both India and UAE are also part of other plurilateral forums such as the I2U2 (grouping of India, Israel, US and UAE) and the

trilateral cooperation initiative of UAE-France-India. In addition, leaders of both the countries share a collective vision of global justice and a rule-based order. The nations have stuck together as non-permanent members of the United Nations Security Council (UNSC), including, sharing a similar stand on abstaining from voting in the Russian-Ukraine crisis. UAE has also extended their support for India in its call for reforms in the UNSC, and backing for India's endeavour for a permanent seat at the UNSC.

In the area of environment and energy, the countries share a partnership in their green projects, with a common perspective of sustainable development and common but differentiated responsibilities. This stands for a focus on green initiatives and actions to mitigate the effects of climate change, but at the same time, promoting development. Along with investments in the area of energy (Green Hydrogen, solar energy and grid connectivity), discussions were held on the affirmation of the need for food security and thus to expand on food and agricultural trade and to develop food corridors. Further, in the area of health too, greater investment and exchange between the two countries has been welcomed.

Cooperation in the area of defence is another dimension in the UAE India relations. This was marked by the setting up of the Joint Defence Cooperation Committee (JDCC) in 2003. The notable areas covered include training as well as supply of inventory. A Joint India UAE air force exercise was conducted for the first time in September 2008 after which India frequents in participation of the International Defence Exhibition held in Abu Dhabi every two years. Furthermore the maritime security concerns of both nations align especially in relation to the space and interest of the Indian Ocean region. Both countries recognise the need for cooperation in order to overcome the traditional (military, threats from other states) and non-traditional threats (natural disaster, piracy, maritime terrorism, pollution, drug trafficking, illegal migration and illegal and unregulated fishing and other trading activities) in maritime security. Ensuring cooperation in maintaining security and enforcement of international norms of conduct in the maritime provides for not only a protection

of national interests and identity but also smoother transport in goods and services, promoting overall development.

In the India UAE joint statement released after the Indian Prime Minister's visit, the countries reiterated their commitment to cooperation on fighting global terrorism and extremism. In the previous visit of the Prime Minister, he had condemned the terror attacks on UAE and maintained how both nations stand shoulder to shoulder to combat terrorism. The guiding principles of peace, moderation, co-existence and toleration among people were emphasised along with the need to get rid of all forms of extremism (hate speech, incitement, discrimination), both nationally and internationally. This commitment has resulted in greater cooperation in fields of defence and security as mentioned above.

The relations between India and UAE extend beyond the economy to social and cultural spheres as well. A large number of Indians are engaged in white collar jobs, as well as occupations in manufacturing, transport, technical and other professionals, even producing many Dubai based Indian billionaires. A further impact of the large presence of Indian diaspora in UAE is the acknowledgement and toleration of Indian cultures in UAE. Schools with Indian curriculums have been established as well as places of worship such as temples and Gurudwaras, cremation grounds along with an array of cultural organisations and associations. These signal the deep respect held for Indians and Indian culture at the UAE and its tolerance. Moreover, the support and aid extended by expatriates and the government during the 2018 Kerala floods are noteworthy.

Therefore, the bilateral relations between India and UAE which are centuries old has evolved from rudimentary forms to a well-cemented partnership, which is evident from the multiple agreements and partnership as well as diplomatic visits of high and lower levels. This close relationship extends from various sectors of economy, military, socio-cultural as well as geo-political. Their benefits also extends to a wide range of spheres from increased trade and employment opportunities to investment opportunities and a partner in geo-political aspirations ranging from a common outlook towards sustainable development, climate change, combating terrorism, endorsing maritime trade and security and promoting peace and stability in the area. In the coming years, these close ties in various spheres could be assumed to grow closer and smoother thereby providing opportunities and promoting prosperity in the region and beyond.

- Ph.D. Sports Sciences

### 8. Institute of Computing and Information Technology

- B.Tech. Computer Science & Engineering
- Integrated B.Tech.-M.Tech. Computer Science & Engineering
- Ph.D. Computer Science and Engineering
- B.Sc. (Hons.) Information Technology
- Integrated B.Sc.-M.Sc. Information Technology
- B.A. (Hons.) Computing and Applied Mathematics
- Integrated B.A.-M.A. Computing and Applied Mathematics
- B.A. (Hons.) Computer Science and Philosophy
- Integrated B.A.-M.A. Computer Science and Philosophy

### 9. Institute of Engineering & Technology

- B.Tech. Solar Engineering, Science and Technology
- Integrated B.Tech.-M.Tech. Solar Engineering, Science and Technology
- Ph.D. Solar Engineering, Science and Technology
- B.Tech. Electrical Engineering
- Integrated B.Tech.-M.Tech. Electrical Engineering
- Ph.D. Electrical Engineering
- B.Tech. Electronics and Communication Engineering
- Integrated B.Tech.-M.Tech. Electronics and Communication Engineering
- Ph.D. Electronics and Communication Engineering

### 10. Institute of Home Science

- B.Sc. (Hons.) Home Science
- Integrated B.Sc.-M.Sc. Home Science
- M.Sc. Home Science
- M.A. Home Science
- Ph.D. Home Science

### 11. Institute of Applied Science

- Integrated B.Sc.-M.Sc. Microbiology
- M.Sc. Microbiology
- Ph.D. Microbiology
- Integrated B.Sc.-M.Sc. Biochemistry
- M.Sc. Biochemistry
- Ph.D. Biochemistry
- Integrated B.Sc.-M.Sc. Biotechnology
- M.Sc. Biotechnology
- Ph.D. Biotechnology

### B.Sc. (Hons.) Science, Technology and Society

- B.Tech. Food Technology and Management
- B.Sc. (Hons.) Nutrition and Health Education
- B.Sc. (Hons.) Applied Life Science with Agrochemical and Pest Management
- M.Tech. Food Technology
- Ph.D. Food Technology

### 13. Institute of Allied Health Sciences

- B.Sc. (Hons.) Medical Laboratory Techniques
- B.Sc. (Hons.) Paramedical Sciences
- Integrated B.Sc.-M.Sc. Paramedical Sciences
- M.Sc. Paramedical Sciences
- Ph.D. Paramedical Sciences

### 14. Institute of Law

- B.A. (Hons.) Legal Studies
- B.A. (Hons.) Criminology & Criminal Justice
- LL.B. (Hons.)

### IX. GENERAL CONDITIONS:

- Only Indian Nationals are eligible to apply.
- Before applying, the candidate should ensure that he / she fulfills the eligibility criteria and other norms mentioned in this advertisement on the web site [careers.ntpc.co.in](https://careers.ntpc.co.in).
- All qualifications should be from Indian Institutes recognized by BTE/AICTE / appropriate statutory authority.
- No manual / paper application will be entertained.
- TA/DA will **not be paid** to any candidate appearing for the online test.
- The admit card indicating roll number, name of the allocated test center and guidelines for the test will be made available on the same online portal to the candidates found apparently eligible based on the online data. The candidate has to download his Admit card for appearing in the test from the website. Admit cards will not be sent by post.
- Candidates are advised to keep the e-mail ID which is to be entered compulsorily in the online application form active for at least one year. No change in the e-mail ID will be allowed once entered. All future correspondence would be sent via E-mail only.
- Computations of age and qualification shall be done w.r.t. the last date of receipt of online application as mentioned in the advertisement. The date of declaration of result / issuance of marksheet shall be deemed to be the date of acquiring the qualification and there shall be no relaxation on this account.
- Candidates shall necessarily have a valid ST/ OBC (Non-Creamy Layer) certificate in prescribed format of Government of India, from the Competent Authority issued in the current year. Relaxation of age to Ex-Serviceman as per Govt. guidelines. 5 years age relaxation for candidates who had ordinarily been domiciled in the State of Jammu & Kashmir during the period 01.01.80 to 31.12.89.
- While applying for the post, the applicant should ensure that he / she fulfills the eligibility and other norms mentioned above, as on the specified dates and that the particulars furnished are correct in all respects. In case it is detected at any stage of recruitment that a candidate does not fulfill the eligibility norms and / or that he / she has furnished any incorrect / false information or has suppressed any material fact(s), his/her candidature will stand automatically cancelled. If any of the above shortcoming(s) is / are detected even after appointment his / her services are liable to be terminated without any notice. Canvassing in any form shall disqualify the candidate.
- Person already working in the Government/Public Sector Enterprises/ Autonomous bodies shall be required to produce "No Objection Certificate (NOC)" before the second stage test i.e. Technical Test for Diploma Engineer Trainee and Skill Test for ITI Trainee. Please note without NOC, candidates shall not be permitted to appear in the stage two test.
- The ST/OBC-NCL/XSM/PwBD candidates and candidates domiciled in the state of Jammu & Kashmir from 01.01.1980 to 31.12.1989 are required to submit a valid requisite certificate in prescribed format of Government of India, from a competent authority at the time of Technical test for Diploma Engineer Trainee and Skill Test for ITI Trainee.
- Candidates are required to submit valid Essential Qualification Certificate before the second stage test i.e. Technical Test for Diploma Engineer Trainee and Skill Test for ITI Trainee.

14. The mere fact that a candidate has submitted application against the advertisement and apparently fulfilling the criteria as prescribed in the advertisement would not bestow on him/her the right to be considered further for selection process.

15. Any proceedings in respect of any matter of claim or dispute arising out of this advertisement and / or an application in response thereto shall be instituted only in the court of Competent Jurisdiction at Raipur, Chhattisgarh, who will be having sole & exclusive jurisdiction to try any such case / dispute.

16. In case of any ambiguity/dispute arises on account of interpretation in versions other than English, the English Version will prevail.

### X. HOW TO APPLY

Eligible & Interested candidates should log on to our website [careers.ntpc.co.in](https://careers.ntpc.co.in) for applying. The site shall be functional from 10.00 AM of 20.07.2023 to 11:59 PM of 12.08.2023. No other means/ mode of application shall be accepted. Candidates are required to possess a valid email ID. NTPC will not be responsible for bouncing back of any email sent to the candidates.

Candidates belonging to OBC-NCL category is required to pay a non-refundable registration fee of ₹300/-. The ST/PwBD/XSM candidates need not to pay the registration fee.

**Payment in offline mode:** State Bank of India has been authorized to collect the application fee, in a specially opened account (A/C No. 30987919993) at CAG branch, New Delhi (Code: 09996), on behalf of NTPC. Candidate has to approach the nearby SBI branch with a printout of the "pay-in-slip" which is available on the application portal. The pay-in-slip printed from the portal should only be used for depositing the fee for proper crediting of amount in the allocated account. On receipt of the money, the bank will issue a unique Journal Number and a Branch Code of the bank collecting the money. This journal number and the branch code are to be filled up by the candidate during online application. Bank commission charges will be borne by the candidate. NTPC will not be responsible, in case a candidate deposits the fee in wrong account.

**Payment in online mode:** Candidates also have the option to pay the fees online (through Net banking / Debit Card / Credit Card). The online payment option will be available in the online application form.

Fees once paid will not be refunded under any circumstances. Candidates are therefore requested to verify their eligibility before paying the registration fee.

Candidates are informed that scanned copies of pay-In slip (applicable for OBC-NCL only in case of payment in offline mode), photograph & signature (applicable for all) are required to be uploaded while applying for the post online.

After applying online, candidates are required to download the application slip generated by the system with unique application number. Copy of application slip may be retained by the candidate for future reference. No document is required to be sent to us by post.

It is mandatory that eligible candidates go through the full text of the advertisement and agree to all the conditions given, while applying for the post. Any further addendum/corrigendum/updates will only be published on our website.

**CORRIGENDUM**

Subject: Filling up the posts in CHS cadre on deputation basis - reg.

In partial modification of this Ministry's vacancy circular of even number dated 08.12.2021 published in Employment News (Edition 25th June - 1st July, 2022) on the subject mentioned above, following amendments are carried out:

(a) Under Para 1, the eligibility criteria may be read as "Applications are invited for filling up of various posts in the Teaching, Non-Teaching, Public Health and GDMO Sub cadres of Central Health Service under the Ministry of Health & Family Welfare at various CGHS Clinics/Institutes by deputation of suitable officers holding analogous posts under the Central Government including Ministries of Railways and Defence or State Governments or Union Territories and by short term contract of suitable officers

holding analogous posts under the Statutory Bodies, Autonomous Bodies, Semi-Government Organizations, Universities or Recognized Research Institutions."

(b) Under Para 2, it is notified for the information of all concerned that one post of Assistant Professor/Associate Professor/Professor in the Teaching Sub-

cadre in the speciality of Orthopaedics at CIO, Safdarjung Hospital, New Delhi as referred at Sl.No.8 in Annexure II of the Ministry's vacancy circular dated 08.12.2021 is withdrawn due to administrative reasons.

(c) The application process for the above is hence reopened for a period of 21 days from the date of publication of this

advertisement in Employment News for the benefit of those who can apply as a consequence of the above correction. Applications of suitable officers, who can be released in event of their selection, may be forwarded through proper channel in the prescribed proforma to: **Under Secretary (CHS-V), Room No.**

**ADVERTISEMENT NOTICE**  
**RECRUITMENT FOR HQ ARMY TRAINING**  
**COMMAND (CIVIL RECORDS OFFICE)**  
**AT SHIMLA - 171003 (HP)**

1. Applications as per format given are invited for Recruitment of following post for HQ Army Training Command (Civil Records Office) at Shimla - 171003 (HP) by Ordinary/Registered/Speed Post within 21 days from the date of publication of this advertisement (excluding the date of publication).

S No.	Name of Post	Category		Total No. of Posts	Minimum Qualification	*Age Limit
		UR	ST			
(a)	Lower Division Clerk (LDC) Basic Pay 19900-63200	01	01	02 (Two)	12th Pass or equivalent from a recognized Board or University.	18 - 25 years from the last date of receipt of application at HQ ARTRAC i.e 22nd day from dt of publication of the advertisement (Upper age relaxation for 05 years for ST candidate only).

**\*Note**

(i) The Employment News is published for a week i.e 7 days. Therefore the period of 21 days for filing / receipt of application is to be counted from last day of period mentioned in the publication of Employment News. Example: if the Employment News is published for the period 03 July 23 to 09 Jul 2023 then the period of 21 days will start from 09 Jul 2023 and accordingly applications are required to reach this HQ on / before 29 Jul 2023.

(ii) In case where candidates belongs to Meghalaya, Arunachal Pradesh, Mizoram, Sikkim, Andaman Nicobar Island and Lakshdweep, an additional time for 7 days will be given for filing the applications. Therefore, the max time period of filing / receipt of applications for such candidates will become 28 days from the last date of publication of this advertisement as per Note (i) above.

(iii) However, the date for determining the age limit for all candidates shall be closing date for receipt of application i.e the 22nd day from the last day of publication of this advertisement.

2. Candidates can also refer site [www.indianarmy.nic.in](http://www.indianarmy.nic.in) for detailed eligibility criteria and application form HQ ARTRAC reserves the right to make change in vacancies (increase or decrease) or cancel or postpone the recruitment without assigning any reason. The above posts are subject to all India Service Liability including Field Services.

3. Screening of application will be on the basis of merit list on **percentage of marks obtained in the exam of essential qualification for the post**. This is carried out to reduce number of candidates to a reasonable limit in the following ratios:-

(a) LDC (UR) - one post - Maximum 75 applications.

(b) LDC (ST) - one post - Maximum 75 applications.

**4. Conduct of Written Test and Skill Test for LDC**

Ser No.	Subject	No. of Questions	Maximum Marks	Duration	Remarks
(a)	<b>Written Test (Bilingual i.e English and Hindi)</b>				
	(i) General Intelligence & Reasoning	25	25	2 Hours	The standard will be as per 12th standard.
	(ii) Numerical Aptitude	25	25		
	(iii) General English	50	50		
	(iv) General Awareness	50	50		
	(v) Descriptive Test Essay Writing (200-250 Words) & Letter/Application Writing (150 - 200 words), Both in English	25	25	30 Minutes	
(b)	<b>Skill Test</b>				
	(i) English/Hindi Typing @ 35 w.p.m. and 30 w.p.m. respectively on Computer (Language choice to be done by selected candidates).	Typing	50	10 Minutes	Only for candidates qualified in Written Test

5. The applications should be addressed to **Establishment Officer, ADMINISTRATIVE BRANCH, HQ ARTRAC, SHIMLA -171003 (HP)** and are to be received through **Ordinary post / Registered post / Speed post**. While forwarding the application, the envelope should be clearly marked "APPLICATION FOR THE POST OF LDC". No application will be accepted by hand. HQ ARTRAC will not be responsible for any loss of application in transit or for any postal delay. Application should be printed on A4 size paper and the photograph should be recent one. Quoting of PIN (Postal Index Number) of the candidates address and category in which the candidate is applying i.e UR / ST should be clearly mentioned in the application form.

6. Written Test date will be intimated by **CALL LETTER from ADMINISTRATIVE BRANCH, HQ ARTRAC** only to selected candidates as per para 3 above whose applications with attached documents are found correct in all respects after scrutiny by **BOARD OF OFFICERS, HQ ARTRAC**. Skill Test will be conducted separately for candidates who qualify in the Written Exam and date of Skill Test will be intimated only to the selected candidates. The Written and Skill Test will **only** be conducted at suitable location at Shimla.

No TA / DA will be paid for any Test i.e Written or Skill Test. The candidates will themselves make arrangement for boarding and lodging for both Written and Skill Test at Shimla.

7. Candidates are advised to attach **self attested copies** of following documents as applicable alongwith **One x self addressed registered envelope (Size 12 x 18 cm) with Rs 25/- postage stamps**. Please **DO NOT FORWARD ORIGINAL CERTIFICATES** with the application:-

(a) Birth Certificate.

(b) Caste Certificate for ST candidates.

(c) Education Certificates alongwith Marks Sheet (Matriculation onwards).

(d) Two additional recent passport size Photographs **excluding** the one pasted on application form.

(e) Govt Employees applying must furnish 'No Objection Certificate' (NOC) from their employer/office along with application else their candidature will not be considered. Govt employee appointed in Govt Services on or after 01 Jan 2014 will be governed by new defined contribution pension scheme.

(f) Aadhaar Card.

8. Incomplete/ineligible application like those without affixing photographs, mismatching photographs, applicants found overage/underage or receipt of application after last date as indicated in para 1 above will be deemed invalid and rejected **without intimation to the candidate**.

9. It is made clear that merely fulfilling the basic essential qualification requirements does not automatically entitle a person to be called for tests. The selection will be made strictly on the merit basis. **The decision of appointing authority regarding selection/rejection will be final**. Recruitment process can be cancelled / suspended / terminated by HQ ARTRAC at any stage due to administrative reasons.

10. ST candidates also have right to compete as general candidates against UR vacancy for which no separate exam will be conducted. Whereas SC / OBC candidate have right to compete as general candidates against UR vacancy only. In such cases no concession or relaxation will be provided to the SC / ST / OBC candidate when competing as Gen Candidate against UR vacancy. One applicant must apply for only one category. The responsibility of deciding the category for which the candidate would like to appear will be the choice of the applicant himself.

11. **Rejection:** The following act / omission would render a candidates application as disqualified :-

(a) Furnishing of false, inaccurate or tampered information. (b) Obtaining support for his candidature through unfair means. (c) Impersonation (d) Submitting forged documents. (e) Making statements, which are incorrect or false or suppressing material information which ought to be declared. (f) Resorting to any other irregular or improper means in connection with his / her candidature for the selection. (g) Improper filling of application. (h) Failing to submit mandatory undertaking with the application conveying willingness to serve in HQ ARTRAC, Shimla or any where in INDIA as per **all India service liability**. (j) Non attaching of NOC by Govt Employee. (k) Any other reason as deemed appropriate by the Board of Officers.

12. Finally selected candidates will be given appointment letter by the Brigadier Administration, HQ ARTRAC, subject to receipt of Verification of Character and Antecedents from concerned Supdt of Police and Medical Fitness Certificate from concerned Medical authorities.

13. Post is permanent subject to successful completion of two years of probation period by the candidate.

14. Candidate should be in possession of the call letter and all original documents/certificates as given/applicable in Para 7 above at the time of appearing for written test/skill test. The same will also be scrutinized if the candidate is selected in the final merit list.

15. Canvassing in any form shall disqualify the candidate. No inquiry or correspondence will be entertained.

16. No extra weightage will be given for additional/extra/higher qualification.

17. The candidature will be cancelled if the finally selected candidate does not report to HQ ARTRAC on the reporting date given.

18. Women candidates will not be given any exemption in the exam.

19. **Any dispute with regard to recruitment will be subject to jurisdiction of Shimla Court only**. Registration of application by no means is a guarantee of employment. All candidates are guarded against contact with self appointed agents / touts indulging in any kind of malicious propaganda undermining the transparency and fairness of entire recruitment process. **Merit as per spelt out tests and possession of Bonafide documents shall be the sole criteria for selection process**.

20. If verification reveals incorrect claim, the candidature will be terminated forthwith without assigning any further reasons.

## Multimedia Careers for Creative Individuals

storytelling to captivate our audience on a deeper level. And with the power of interactivity, we can actively engage users, inviting them to participate and explore content in a way that suits their preferences.

### Dynamic Multimedia Careers that Await Your Creative Expertise

**Production Managers:** The production manager plays a crucial role in overseeing the entire multimedia production process, from inception to completion. This entails defining the project's scope, coordinating various aspects, and ensuring smooth execution. To excel in this role, a production manager should possess a range of desirable qualifications. Firstly, they should have a deep understanding of the fundamental principles of multimedia authoring, enabling them to make informed decisions and guide the creative team effectively. Additionally, skillful proposal writing is essential, as it allows the production manager to present compelling project plans and secure necessary resources. Strong negotiating skills are also highly valuable, as they enable the manager to establish favorable partnerships with vendors, suppliers, and other stakeholders involved in the production. Being well-versed in relevant legal issues ensures compliance with copyright laws, contracts, and any other legal considerations throughout the production process. Effective communication skills are vital for liaising with team members, clients, and external collaborators, fostering collaboration and maintaining clear lines of communication. Furthermore, budget management skills are necessary to allocate resources efficiently and keep production costs under control. Experience in human resources management equips the production manager to lead and motivate a diverse team, resolving conflicts and ensuring a harmonious work environment. Lastly, a solid foundation in Business Management coupled with creative acumen provides a broader perspective, enabling the production manager to align production objectives with organisational goals and contribute to the project's success.

**Content Writers:** Content Writers are responsible for creating stories and delivering them to the audience through various formats. They may work with platforms like video blogs, broadcasts, articles, photos, or radio shows. They need to conduct thorough research and strive to maintain ethical standards while creating their stories. Sought-after content writers possess strong writing and communication skills, ability to research and gather information, critical thinking, and adaptability to different media formats. A degree in journalism, communications, or a related field is beneficial. Experience in reporting, writing, or working with media outlets is valuable.

**Animators:** Animators create moving images and use them to tell stories, educate, or inspire action. They work with various techniques such as 2D or 3D animation, stop-motion, and digital drawing. Animators often collaborate with clients and follow production budgets. They need to have proficiency in animation software and tools, storytelling through motion and visuals, attention to detail, and ability to work within project constraints like budget and deadlines. A

degree in animation, graphic design, or a related field is beneficial. Strong drawing and computer animation skills, along with an impressive portfolio, are important for demonstrating expertise.

**Sound Engineers:** They work with sound mixing and reproduction for different mediums, such as movies, music, commercials, and theater productions. They design and operate sound systems to ensure optimal sound quality. They need to have expertise in handling audio equipment and technologies, proficiency in sound editing and mixing software, attention to detail and creative problem-solving abilities. A degree in audio engineering, music production, or a related field is advantageous. Hands-on experience with sound equipment and software is highly beneficial.

**Video Editors:** They are responsible for editing and combining video footage to create a final product for the audience. They incorporate special effects, graphics, music, and text based on the video's purpose and target audience. Video editors tell stories through their editing skills. Proficiency in video editing software, creativity in storytelling through visuals, attention to detail, understanding of narrative structure are must. A degree in film editing, multimedia production, or a related field, combined with practical experience in video editing and a strong portfolio are essential.

**Multimedia Designers:** They are tasked with the responsibility of visually presenting the work of the content/creative writer such as marketing campaigns using images, text, graphics, and videos. They collaborate with project teams and utilise design tools to complete their work. Degree in multimedia design, graphic design, or a related field are the most sought after qualifications.

**Video Game Designers:** They develop video games by creating storylines, characters, and gameplay mechanics. They ensure the game remains engaging and challenging for players, while collaborating with production teams and adhering to specifications. Apart from computer science, they also need to have adequate understanding of video game design principles, art of storytelling, knowledge of gaming trends and platforms and teamwork. The ever-expanding gaming industry look out for talents who possess a degree in game design, computer science, or a related field with a strong portfolio showcasing design skills.

**Product Reviewers/Technical Writers:** They create clear and concise content that explains how products or systems function to end users. They create guides, instruction manuals, documentation, and articles, simplifying complex information for readers. They need to possess strong writing and editing skills, ability to simplify technical information, research skills and attention to detail. Candidates with knowledge of specific industries or technologies, and proficiency in documentation tools have the competitive edge.

**Interpreters:** They facilitate communication between individuals who speak different languages. They may work with oral, written, or recorded communication to ensure accurate translation and convey the original message's intent. Expertise in multiple languages, strong listening and comprehension skills, cultural sensitivity,

ability to think and speak quickly combined with formal education or certification in interpreting or translation are qualifications that recruiters look for.

**Art Directors:** They oversee the visual aspects of a creation and determine the style and content for designs in magazines, websites, product packaging, films, and TV productions. They lead creative teams to bring their vision to life. Desirable expertise include strong visual and aesthetic sense, leadership and team management, decision-making, knowledge of design principles and trends. Individuals possessing a degree in graphic design, fine arts, or a related field with experience in art direction, proficiency in design software, and a portfolio showcasing design projects are highly sought after in the industry.

**Content Strategists:** These professionals develop and maintain a brand's content strategy based on company goals and audience needs. They collaborate with writers, designers, and artists develop content calendars and perform content audits. They possess the crucial ability of content planning and management, understanding of audience psyche, storytelling, data analysis and project management. Apart from a degree in marketing or a related field, experience in content strategy, proficiency in content management systems, and knowledge of SEO and analytics tools are valuable.

**Public Relations Manager:** The role of Public Relations Manager has expanded and changed with the advent of multimedia platforms that are widely used by brands for promotions. They not only handle press releases, media relations, trend monitoring, and organise events to promote the brand but also require collaborating with content creators for devising strategies to effectively communicate on multimedia platforms and engage the general public in brand promotion as well as crisis management. Hence, conventional courses in Public Relations/Media Relations have also undergone changes to accommodate the requirements and challenges of multimedia platforms. Individuals with the ability to communicate effectively while thinking strategically while maintaining strong networking abilities make for an ideal candidate for this kind of role.

**Advertising Managers:** Advertising managers conceptualise, create, manage, and analyse advertisements for brands that are adequately suited and compatible with the various multimedia platforms. They sell or purchase advertising space, follow budgets and timelines, and ensure the jingle remain appealing to the target audience. They need to possess skills like strategic thinking, understanding of branding and target audience, and negotiation skills. A degree in advertising, marketing with focus on digital marketing trends is suggested.

**Social Media Managers:** These professionals represent brands on social media platforms, develop effective strategies to increase brand awareness, and engage with the target audience. They handle advertising budgets, curate analytics reports, and create content using videos, graphics, text, and audio. They need to possess in-depth knowledge of social media platforms and trends, content creation and management, data analysis, strong communication skills. A degree in marketing, communications, or a related field is advantageous.

Each of these multimedia careers offers unique opportunities for creative

individuals. Consider your interests, skills, and strengths to choose the path that aligns best with your passions. Remember, continuous learning, practical experience, and a strong portfolio are key to standing out in the competitive multimedia industry.

Now that you have an overview of these exciting careers, let's explore how you can secure a job in the multimedia industry:

- **Earn a degree:** Consider pursuing a degree in fields like fine art, animation, marketing, computer graphics, or related disciplines. This education will equip you with essential skills and knowledge needed for multimedia careers.
- **Complete internships:** Gain real-world experience by participating in internships or shadowing professionals in the multimedia field. These opportunities provide valuable insights and allow you to network with industry experts.
- **Identify your interests:** Determine which aspect of multimedia interests you the most, whether it's video editing, animation, social media management, or any other field. This will help you focus your studies and target specific job roles.
- **Do freelance or volunteer work:** Take up freelance projects or volunteer for organisations to build your portfolio and gain hands-on experience. These opportunities also enable you to expand your professional network.
- **Build your portfolio:** Compile your best work, including college projects, freelance projects, and volunteer work, into a portfolio. An impressive portfolio showcases your skills and becomes a valuable asset when applying for jobs.
- **Attend networking events:** Network with industry professionals by attending events, conferences, and trade shows. Engage in conversations, seek advice, and seize potential job opportunities. Building connections is key!
- **Apply for positions:** Regularly check online job boards and industry-specific websites for multimedia job postings. Tailor your application to highlight your relevant skills and experience. Consider reaching out to past connections for recommendations or insights into potential job openings.
- **Keep Updated:** Remember, your journey in the multimedia industry is unique, and each career path requires its own set of skills. Be open to continuous learning, stay updated with industry trends, and nurture your creative abilities to thrive in this dynamic field.

The multimedia industry is thriving, and with the advancements in technology, it continues to evolve and expand. From marketing and education to entertainment and beyond, the possibilities for creative individuals like you are endless. So, if you have a knack for thinking outside the box, a passion for storytelling, and a desire to make a lasting impact, a career in multimedia might just be your calling. So, unleash your creative potential, explore the possibilities, and embark on a rewarding career as a multimedia content creator. The world is waiting to experience your imaginative creations!

**Horizon 2047: Blueprint ...**

Agreement and the Sustainable Development Goals. Together, they prioritize clean energy sources, including renewables and nuclear power, to simultaneously address energy security concerns. In the Indo-Pacific region, they champion sustainable development through initiatives such as the Indo-Pacific Parks Partnership and the International Solar Alliance, protecting biodiversity, advancing the blue economy, and promoting climate finance. Strengthening cooperation in disaster resilience and responding to climate-related hazards is a shared priority, alongside innovation in decarbonated hydrogen production and the promotion of solar and hydropower solutions. Energy efficiency, public health initiatives, sustainable fisheries, and the fight against plastic pollution are also key areas of collaboration. Both countries aim to elevate their climate ambitions and achieve carbon neutrality by 2050 or 2070, while working together on urban transformation, waste management, and sustainable transport to foster circular economies and social inclusion.

**Harnessing Technology for Progress and Independence:** For both India and France, scientific progress is a priority. Hence, the two countries are steadfast in their resolve to foster greater collaborations on this front, facilitated by the India-France Joint Strategic Committee, focusing on space, digital technology, critical technologies, energy, ecological and urban transition, and health. Collaboration in critical digital technologies, including supercomputing, cloud computing, AI, and quantum technologies, is pursued within the Global Partnership on AI. Both countries aim to enhance innovation and industrial applications of digital technologies to tackle climate change and health-related issues. They intensify collaboration in health and medicine, encompassing digital health, AI for healthcare, biotechnology, and medical waste treatment. The Indo-French Campus for Health in the Indo-Pacific region strengthens bilateral cooperation in the health sector. Commitment to cyber cooperation, digital regulation, and Digital Public Infrastructure (DPI) underscores their dedication to secure, open, and inclusive digital ecosystems. Startups play a vital role in driving innovation and job creation, fostering connectivity between entrepreneurial networks. Through thriving ecosystems and collaborations, India and France empower citizens in the digital era. The implementation of India's Unified Payment Interface (UPI) in France demonstrates the two countries' commitment to embrace digital transformation and collaborate on that front. Leveraging technology, markets, and governance, they aim to achieve sustainable development goals and share their approach with countries across regions like the Indo-Pacific and Africa.

**Elevating the Importance of Space:** India and France have embarked on a path of deeper cooperation in the space sector, forging a strategic alliance that promises mutual benefits and remarkable achievements. At the core of this collaboration lie two pivotal axes: the scientific and commercial partnership,

and the resilience of access to space. Within these realms, notable endeavors such as the TRISHNA mission, activities under the Space Climate Observatory, space exploration missions to Mars and Venus, maritime monitoring initiatives, and the Gaganyaan program, which encompasses manned flights, form the bedrock of this transformative partnership. Additionally, the joint efforts of NSIL and Arianespace in commercial launch services signify the shared commitment to advancing the commercial potential of space exploration. Furthermore, India and France are resolute in their dedication to bolstering their synergies and nurturing forward-looking technologies that fortify their sovereign access to space. To ensure the longevity and efficacy of this collaboration, the recently institutionalised bilateral strategic space dialogue serves as a crucial avenue for sustained engagement, facilitating continuous progress and innovation in the ever-evolving area of space exploration.

**Trade Ties:** France has emerged a key trading partner of India with annual trade

of \$12.42 billion in 2021-22. It is the 11th largest foreign investor in India with a cumulative investment of \$10.31 billion from April 2000 to June 2022, which represents 1.70% of the total foreign direct investment inflows into India. In contrast to India's robust economic ties with Germany, France ranks lower as an investor and bilateral trade partner. Although steadily increasing, bilateral trade between the two economic powerhouses still falls below its potential. Efforts have been made to address this disparity, including the CEO forum held during the recent visit, yet the conclusion of an EU-India Free Trade Agreement holds the key to unlocking maximum trade potential. Trade and investment also play a crucial role in their partnership, with a focus on resilient value chains and facilitating investments between the two countries. India and France are committed to resolving market difficulties faced by exporters and investors, and they encourage companies to strengthen ties and expand activities in each other's economies.

**People to People Ties:** Promoting

## INDIA - FRANCE JOINT COMMITMENT TO ELIMINATE PLASTIC POLLUTION

### India- France Joint Commitment to Eliminate Single-Use Plastic Pollution

In a significant move towards environmental preservation, India and France have united in a shared vision to tackle the global challenge of single-use plastic pollution. Through their commitment to banning low utility and highly littering single-use plastic products, both nations aim to address the adverse impacts of plastic waste on ecosystems, particularly marine ecosystems. This collaborative initiative, unveiled under the roadmap titled "Horizon 2047," holds great promise for a cleaner and more sustainable future.

### Looking Ahead

Recognising the significance of greater cooperation among economies in combating plastic pollution, India and France aim to engage other likeminded countries to strengthen negotiations for an international legally binding instrument. Building upon the historic UNEA 5.2 resolution, this collective effort seeks to put an end to plastic pollution on a global scale.

By implementing bans, embracing extended producer responsibility, promoting reuse, and adopting other measures, India and France are already taking crucial steps towards a cleaner, healthier planet. The joint initiative under the "Horizon 2047" roadmap sets a powerful example for the international community. The significance of this effort cannot be overstated as they pave the way for innovation, competitiveness, and job creation while preserving our environment for generations to come.

### GLOBAL EFFORTS

Global efforts to combat plastic pollution have seen actions under the Stockholm Convention and amendments to the Basel Convention.

The International Union for Conservation of Nature (IUCN) highlights the need to address plastic pollution and protect natural habitats.

The International Marine Organization (IMO) has implemented an action plan for marine litter from ships.

Resolutions by the United Nations Environment Assembly (UNEA) stress the importance of identifying eco-friendly alternatives and preventing pollution in protected areas.

UNEP's regional seas conventions have developed marine litter action plans.

### Actions Taken So Far by France and India

France, in alignment with the European Union Single-use Plastic Directive, has already implemented a ban on single-use plastic products since January 2021. France aims to eliminate single-use plastic packaging by 2040. India, on the other hand, introduced rules in August 2021 to phase out identified single-use plastic items by July 2022. India has also mandated Extended Producer Responsibility (EPR) on producers, importers, and brand owners for plastic packaging waste.

vibrant exchanges, particularly for the benefit of youth, India and France have embarked on a robust partnership. In the realm of education, India and France are dedicated to strengthening academic ties, fostering student exchanges, and promoting joint training programs. France aims to welcome a significant number of Indian students, offering five-year validity Schengen visas for those who complete a master's degree from a recognised French University. The two countries also prioritise linguistic cooperation and cultural exchanges, promoting the teaching of each other's languages and supporting long-term stays for artists and writers. The two countries have drawn a roadmap to further enhance cooperation in areas like museums and heritage, cinema, artistic and literary collaboration, linguistic cooperation, and sports. Additionally, they continue to expand consular services to facilitate people-to-people ties.

## NATIONAL

### India and Sri Lanka Strengthen Ties with Agreements on UPI, Oil Pipeline

India and Sri Lanka have adopted a 'Vision Document for the Economic Partnership' aiming to strengthen maritime, air, energy, and people-to-people connectivity. The vision aims to accelerate cooperation in tourism, power, trade, higher education, and skill development. This was announced by Prime Minister Shri Narendra Modi after his meeting with visiting Sri Lankan President Mr. Ranil Wickremesinghe in New Delhi on July 21. The leaders signed an agreement to introduce Unified Payments Interface (UPI) in Sri Lanka, promoting Fintech connectivity. Additionally, they discussed the construction of a multi-project petroleum pipeline from southern India to Sri Lanka and announced passenger ferry services between Tamil Nadu's Nagapattinam and Sri Lanka's Kankasanturai. Addressing the joint press conference, PM Modi highlighted the profound importance of Sri Lanka in India's 'Neighbourhood First' policy and 'SAGAR' vision. The Sri Lankan President's visit comes as India and Sri Lanka celebrate the 75th anniversary of diplomatic relations.

### In a First, Rajya Sabha Vice Chairpersons' Panel Occupied by 50% Women

Chairman of Rajya Sabha Shri Jagdeep Dhankhar has nominated four first-time women Parliamentarians to the panel of Vice-Chairpersons. They are Smt. P.T. Usha, Smt. S. Phangnon Konyak, Dr. Fauzia Khan, and Smt. Sulata Deo. The reconstituted panel, consisting of eight members, is the first in the Upper House's history to provide equal representation (50%) to women in the Vice-Chairpersons' panel. In addition to this historic move, the Rajya Sabha Chair has embraced digitization, utilising electronic tablets for conducting House business, managing attendance, and gathering details of Members' contributions.

### PM Modi Advocates Tailored Social Protection at G20 Labour & Employment Meet

Prime Minister Shri Narendra Modi has said that social protection approaches should be tailored to suit each country's unique circumstances. He was virtually addressing the G20 Labour and Employment Ministers Meet held in Indore, Madhya Pradesh on July 21. Emphasising the significance of technology as the core driver for employment in the Fourth Industrial Revolution era, the PM highlighted skilling, re-skilling, and up-skilling as crucial elements for the future workforce. The Prime Minister praised India's 'Skill India Mission' and 'Pradhan Mantri Kaushal Vikas Yojana,' which have trained millions of youth, with a focus on AI, robotics, IoT, and drones. He recognised the gig economy's resilience during the pandemic and called for policies to ensure social security and empowerment.

### Startup20, Jagriti Foundation Launch 'Yatra' for Inclusive Entrepreneurship

The Startup20 Engagement Group and Jagriti Foundation, an NGO, have come together to launch the "Jagriti-Startup20-G20 Yatra 2023" initiative. Under India's G20 presidency, this project aims to revolutionise entrepreneurial ecosystems in Tier 2/3 cities by fostering inclusive entrepreneurship and cross-border collaboration. The yatra will bring together 350 Indian participants and 70 foreign delegates from G20 countries on a 14-day entrepreneurship journey. Starting from Mumbai on October 28, the Yatra that will continue till November 10, will span across prominent Indian cities, enabling participants to exchange ideas, forge partnerships, and create sustainable and innovative solutions to address pressing global challenges.

### NITI Aayog Unveils Tools for Tracking India's Clean Energy Transition Journey

NITI Aayog has launched two cutting-edge tools: the India Climate Energy Dashboard (ICED) 3.0 and the revamped India Energy Security Scenarios (IESS) 2047 V3.0. The ICED 3.0 offers real-time data on the energy sector and climate, featuring over 500 parameters and 2000 infographics for a comprehensive view of India's energy landscape. Meanwhile, the user-friendly IESS 2047 enables the assessment of various green energy policies' integrated impact, supporting net-zero pathways until 2047. Both tools promise to facilitate the nation's sustainable energy transition journey.

### G20 Energy Transition Working Group Discuss Pathways for e-Mobility Growth

NITI Aayog organised the "Policy Support & Enablers to Accelerate India's Electric Mobility" conference alongside the G20 Presidency's fourth Energy Transition Working Group meeting that recently concluded in Goa. The event brought together national and international stakeholders to showcase India's electric mobility

ecosystem and discuss pathways for future growth. India's EV market is projected to grow at a remarkable 49% CAGR from 2022 to 2030, aiming for a 30% global market share by 2030. The conference emphasised the potential for job creation and environmental benefits, aligning with India's net zero vision of 2070. Meanwhile, the Department of Science and Technology also organized Technology Showcase on the sidelines of the meet, exhibiting India's advancements in various sectors, including electric vehicle and charging infrastructure, mission innovation, and clean tech start-up.

## INTERNATIONAL

### Britain Joins Asia-Pacific Trade Group in Landmark Deal with 11 Nations

Britain has officially become a member of the Comprehensive and Progressive Agreement for Trans-Pacific Partnership (CPTPP), a trade bloc that includes Japan and 10 other nations. This marks the largest trade deal for Britain since its exit from the European Union over three years ago. The CPTPP covers over 500 million people and 15 percent of the global economy. British Trade Minister Mr. Kemi Badenoch expressed that this modern and ambitious agreement opens up new opportunities for British workers and businesses, with over half a million Britons already employed by companies from the bloc's member nations. Britain has signed separate trade deals with Australia and New Zealand after Brexit.

### EU Announces 7.6 Million Euros Humanitarian Aid for Afghanistan

The European Union has announced a humanitarian aid of 7.6 million euros for Afghanistan to help with the burgeoning food shortage and economic crisis. With the ultimate aim of improving unirrigated land in six provinces of Afghanistan, the aid will help alleviate poverty and hunger in rural areas by supporting income generation programmes and smart farming methods. The project will be carried out in provinces like Badakhshan, Dykundi, Ghor, Jawzjan, Samangan, and Takhar.

## ECONOMY

### India, Japan Sign MoU to Develop Resilient Semiconductor Supply Chain

India and Japan have signed a Memorandum of Understanding (MoU) to develop a resilient semiconductor supply chain. Recognising Japan's prominence as a semiconductor producer and technology developer, India has sought collaboration in manufacturing, equipment research, design, talent development, and supply of semiconductors. Electronics and IT Minister Shri Ashwini Vaishnaw highlighted India's rapid progress in its semiconductor mission while emphasizing that the MoU signifies the global confidence in India's capabilities and dedication to establishing a comprehensive semiconductor ecosystem within the country. Additionally, India and Japan are also exploring cooperation in decarbonisation of the steel sector. Steel Minister Shri Jyotiraditya Scindia and Japan's Minister of Economy, Trade, and Industry, Mr. Nishimura Yasutoshi met in New Delhi on July 20 to discuss the matter. India and Japan, being the world's second and third-largest steel producers, acknowledge the significance of collaboration to achieve their respective net-zero goals, taking into account the diverse pathways towards steel decarbonisation.

### ADB Retains India's Current Year Growth Forecast at 6.4 %

The Asian Development Bank (ADB) has retained India's economic growth forecast at 6.4 percent for the current financial year and 6.7 percent for the next. The ADB said robust domestic demand will continue to support the region's recovery. In an update to its Asian Development Outlook, the ADB said inflation is expected to continue to fall, approaching pre-pandemic levels as fuel and food prices decline. It forecast 3.6 percent inflation this year for developing economies in Asia, and 3.4 percent in 2024. The Indian economy grew 7.2 percent in the 2022-23 fiscal ended March 2023.

## SPORTS

### Satwiksairaj Rankireddy Creates Guinness World Record with Lightning-Fast Badminton Shot

Indian badminton star Satwiksairaj Rankireddy has achieved an extraordinary feat, securing the Guinness world record for the fastest badminton shot by a male player. During a game on July 19, he unleashed a stunning smash at an incredible speed of 565 kilometers per hour, shattering the previous record set in 2013. The record-breaking shot was officially verified by Guinness world records judges, solidifying Satwik's place in history. This impressive achievement took place in a controlled environment at the Yonex factory gymnasium in Japan. Malaysia's Tan Pearly also clinched the world record for the fastest female badminton hits, reaching an impressive speed of 438 kilometers per hour.
